BASIC Language

VOLUME I LESSONS 1-10
First in a series of tutorial programs to explain BASIC to beginners. With simple text and clear examples, you'll know BASIC in no time. Lessons start at an introductory level and progress to more complex elements of computer programming. Makes a great overview even for those already familiar with the language.

BASIC Language

VOLUME II LESSONS 11-15
Second element of the BASIC tutorial series, this Sof-Disk™ presents more difficult assignments and problems. Your errors are instantly corrected and explained, making learning a self-paced exciting experience.

Formatted Blank Sof-Disk™

These blank disks are specially-formatted for use on the Compucolor II. Write your own programs and use the Sof-Disks to record them. These Sof-Disks are also ideal for use as companion data disks when extra storage is needed (as with Checkbook, Personal Data Base, etc.).
