## Color communicates better. That's the obvious benefit of ISC's new CP/M<sup>®</sup> compatible desktop computer.

What isn't as obvious is how easy it is to operate the Intecolor<sup>®</sup> 8963. Because the CP/M operating system lets you choose from an abundance of prepared CP/M business software, you don't have to write programs unless you want to. And with ISC's color-coded word processing program, you can take advantage of the 8-color graphics display immediately! Color-enhanced programs are also available from Peachtree Software\* to handle your General Ledger, Accounts Receivable and Payable, Payroll, Mailing List and Inventory Management System.

The Intecolor 8963 is complete with 19" CRT display, 32K of user RAM (now expandable to 64K), 591K dual 8" floppy disk drive and a color version of Microsoft<sup>®</sup> Business BASIC. At just \$6395<sup>†</sup>, it's perfect for the small business.

If you'd rather get down to business than write programs, ask for a demonstration of the Intecolor 8963. Available at selected computer dealers, or contact your nearest ISC sales representative.

†U.S. domestic price.

Unretouched photo of screen.
